Tasting notes: it shows a very deep cherry colour. It presents a fine and complex nose. On the palate it is fresh, with soft tannins and a lingering finish.

Peak drinking: 2014-2019

Awards: **Gold medal at Vinari 2014 to best Catalan red**

Wine guides: **90 Guía Peñin 2015 and 2016**

Storage and serving suggestions: Due to the treatments and the long aging of this wine, it may be appear natural sediments. Before serving it, it may be necessary either to decant it or to keep the bottle upright during at least 1 hour. During the first years (2014-2016) decanting it will offer a better aromatic expression. Serve cool at 16°C and enjoy it slowly.

It was during 2004 when the selection of this quality started, with Carignan from traditional low yields vineyards as the main character. Carignan is an extremely delicate vine plant but with an excellent quality for long aging wines. Syrah and Cabernet Sauvignon are generally the other grapes to complete this wine. All of them are elaborate and aged separately until, after tasting them, we select the best barrels from each grape variety and harvest. After this selection, we blend it and immediately a soft natural filtering is made in order to preserve all of the wine's structure and hints.
